

**Do you live close to nature?
You could be in danger of wildfire!
Help protect your home from wildfire...**

Be Firewise!

Q: What does it mean to be Firewise?

A: Simply put, it is being wise about living close to nature and the possibility of wildfire.

One way to be Firewise, is to make your house Firewise!

Q: So, how do you make your house Firewise?

A: You do things that will help protect it from wildfire.

Here are a few suggestions:
Remove all of the things that could catch fire and burn easily, such as: leaves; broken branches; pine needles that are on your roof, around the house, or in the yard; firewood; gas; or other flammable items that are close to the house.

Find & color the items in this picture that make the house not FIREWISE.

- Answers:**
- Leaves on roof
 - Broken branches on roof
